

Logistics Services

LOGISTICS

- ➔ We, ICON SERVICES AND TRADE LLC (PETROCON), are pleased to introduce ourselves as one of the leading cargo handling companies in the region and serve a wide range of industries to meet all of their transportation requirements.
- ➔ PETROCON is a company that provides a complete set of solutions which are designed to meet the diverse needs of today's demanding business environment and prides itself on each partnership we have established with the clients we serve.
- ➔ We are capable of performing bunkering at all the global ports with our own Tankers, Barges and for local delivery we carry out the delivery through road tankers, IBC tanks and Drums.
- ➔ As an operator and freight broker, we establish partnerships with our clients by listening and observing, so we understand their shipment & trucking needs before we recommend a solution – whether it be air cargo, road transport, ocean transport or a special heavy haul project combining several modes of transportation. Our logistics wing is full-fledged to serve your every bit of need 24x7.
- ➔ PETROCON is not limited to only intermediate raw material operations we undertake. We also study and recommend logistical solutions of transports, assemblages, stowage and overall monitoring of the entire export / import process in order to achieve efficient results and full satisfaction for our clients. Utmost importance to us, is the constant expansion and selection of our partners, with regard to the loading rates/performances, agency contribution and stevedoring; all of which are vital elements for the efficient operation within the markets we serve.
- ➔ Based on our past experience, our dedicated shipping experts have built long-term relationships with various first-class ship owners and brokers that provide the best freight opportunities to charter vessels under different types of charter parties: from spot shipments to long-term contracts of affreightment and time charters. Our operations are based on a FOB basis, additionally providing our customers with Freight services, for which our company does not charge any additional value to the basic prices.

➔ PETROCON undertakes bunkering at all the ports on the globe and are specialized in the field with our own Tankers, Barges and for the local deliveries we do deliver through road tankers, IBC tanks and Drums. We provide one window solution to our customers. Chartering is an activity within the shipping industry whereby a ship-owner hires out the use of his vessel to a charterer. The contract between the parties is called a charter party.

We have years of rich experience in chartering of various type of ships such as:

1. Tankers 2. LPG vessels 3. LNG Vessels 4. Bulk Carriers
5. Live Stock Carriers 6. Container Ships 7. Cement Carriers
8. General Cargo Ships 9. Offshore Vessels
10. Small Marine Crafts suitable for coastal use or inside harbors
11. Tugs 12. Barges

➔ We also assist our valuable clientele in the following areas:
